

STANDARD MEMBERSHIP APPLICATION FAQs

Which category do I go under?

The first step to determining the correct membership category is downloading the Standard Membership Application. Read over the descriptions on page 2 of the application. If your company produces multiple products or provides multiple services, we will need to know what is your primary business and/or why are you wanting to become a member? If you do have multiple types of businesses, you can have multiple memberships. We will help guide you once your application has been received.

How many badges do I get?

Badges are tied to your member type. Please see the Standard Membership application for details on badge allotments for each category. Please note, membership categories are determined based on your business. The ATA makes the final determination on your membership category.
