

Download the ATA Connect App for Free!

Did you know you can access [ATA Connect](#) using an app? It's true! You can easily communicate with your peers using your tablet or smartphone, thanks to the "MemberCentric" app.

The MyATA Network within ATA Connect is an open forum for ATA members. Meanwhile, the Retail Growth Interact community is reserved for ATA-member retailers, but they also have access to the MyATA Network. Both online forums help ATA members share ideas, ask questions and get business advice from like-minded business owners.

Special Instructions: Before jumping in, please sign in to the "[MyATA Network](#)" on [ArcheryTrade.org](#) to update your password on the new member dashboard. You must use that password to access your ATA Connect account within the "MemberCentric" app.

Get the App! It's Free!

Download the "MemberCentric" app from [Google Play](#) or the [Apple App store](#).

Once it's downloaded, search for "ATA" and select it from the dropdown menu. Then, log in with your ATA-member information. When you log in the first time, you can also set up an ATA icon on your home screen.

Communicate with Ease

The ATA Connect mobile app makes communicating with peers more convenient than ever. It's easy to use, and you can set it up to send customized notifications on discussions in specific threads or communities. You can also opt out of notifications. You can use the app on tablets or smartphones, and it requires one sign-in after being downloaded.

Questions?

Please contact [Kurt Smith](#), ATA's director of industry relations, at kurtsmith@archerytrade.org or (717) 478-5919.
