Adapted from Explore Bowfishing 1st edition pgs. 8-15

LET'S GET STARTED

1. This can be played as an individual or group activity. Each individual or team should take one set of equipment cards and one compound or recurve bow template.

2. Instruct participants to set all images and words face down. The goal is to match the image with the correct word to place on the bow.

3. When ready, start the timer for participants or teams to begin.
   • Only two cards can be flipped at a time to make a match. A correct match is an image with its corresponding word.
   • If the cards do not match, they must flip back over and try again.

4. Once a positive image and word match is made, participants must attach/lay the pair correctly on the bow template.

5. Time ends when all matching equipment image and word pairs are correctly positioned on the bow.

6. Record the time and participants’ name. Reward the quickest individual and/or teams.
