TOWERS & MULTI-STORY EXHIBITS

A Tower is a free-standing exhibit component separate from the main exhibit fixture. The height restriction is the same as that which applies to the appropriate exhibit space configuration being used. Fire and safety regulations strictly govern the use of Towers. A building permit or safety lines may be required.

A Multi-story exhibit is a booth where the display fixture includes two or more levels. The Exhibitor is responsible for knowledge of and compliance with all Indiana State Fire Marshal, City Engineer and all Convention Center facility requirements. Exhibitors with either or both must submit required documents and drawings

to the Official General Service Contractor for review and approval by the City Engineer, Fire Marshal and Convention Center. Once approved, Exhibitors must submit copies of approvals, permits, engineering stamped documents and the professionally rendered drawings to Eric Dobberfuhr, ATA Sales Manager, ericdobberfuhr@ArcheryTrade.org no later than November 20, 2026.

ELECTRICAL / FIRE CODES

The Exhibitor is responsible for knowledge of and compliance with all Indiana State Fire Marshal requirements and all Convention Center facility requirements. A complete listing of these requirements can be found in the Exhibitor Resource Center. All booth decorations and materials must be flame retardant. All electrical devices and installations must comply with the National Electrical Code, all Federal, State, and Local Safety Codes. Violations of portions or all of these regulations will result in cancellation, at Exhibitor's expense, of all or such part of the exhibit as may be non-compliant. If you have questions regarding these regulations please contact Indiana Convention Center www.icclos.com, or email Kelly Powers kelly.powers@icclos.com or phone 317-262-3462 also info in the Exhibitor Resource Center.

HANGING SIGNS

All hanging or suspended material and signs must comply with these display regulations. Hanging signs may be hung to a maximum height of 25' from the floor to the top of the sign. Only Island, Peninsula or Walk Through booths of 400 sq. ft. or larger qualify to suspend hanging signs. There must be a minimum of a 4 ft. gap between the highest part of the booth and the lowest point of the hanging sign. The maximum combined height between any ground supported structure and hanging sign, at their tallest dimensions when viewed from any point on any side, may not exceed a maximum of 20'. If a structure that is 20' in height is used, a hanging sign is not permitted.

BOOTH PRESENTATION

All back walls and side walls must be fully finished or draped, or they will be draped at the Exhibitor's expense. Transparent or see-through back walls or displays which do not cover the back wall entirely are not acceptable. The backside of any walls (back and sides) - the common border facing the neighboring booths - must be devoid of copy, logos, graphics, or any other materials or images that could infringe on the booth presentation of neighboring exhibitors. No sign or booth materials may protrude into the aisles or encroach upon neighboring booths. Nothing can extend beyond the boundaries of the booth space purchased by each exhibitor. No obstruction may be placed in any aisles, passageways, lobby, or exits, or in any areas leading to any fire extinguishing appliances. No activities may be conducted in the aisles, including games, contests, or giveaways.

Nothing may be posted, tacked, screwed, stuck, or attached to any columns, walls, floor, or other parts of the convention center. If an Exhibitor wishes to attach something to any convention center structure, wall, or other property, please contact the ATA Sales Manager, Eric Dobberfuhr. Any damage or defacement caused by infractions of this rule will be remedied at the expense of the rule-breaking Exhibitor.

SOUND / MUSIC

Exhibitors may use sound amplification equipment in their booth but are required to obtain all equipment through the ATA's Official AV Service Provider. In no case will any sound amplification equipment not provided by the Official AV Service Provider be permitted to be used on the Show exhibit floor. The noise level cannot disrupt the activities of neighboring Exhibitors. Speakers and other sound devices should be positioned to direct sound into the booth rather than into the aisle. Under no circumstances will Exhibitors be allowed to broadcast continuous voice amplification devices during Show hours. Neighboring booths that are using sound equipment are expected to stagger their presentations so as not to conflict with each other. Exhibitors whose noise levels become disruptive to their neighbors will receive a warning and upon failure to conform to this regulation will face either prohibition of the offending activity or cancellation of their exhibit space contract, without penalty. The Official AV Service Provider and the ATA will work with individual companies to ensure compliance. In some cases, the ATA may require a sound engineer to operate this equipment. Prior to the Show, Exhibitors are strongly encouraged to contact Eric Dobberfuhr, Sales Manager, if they plan to use sound amplification equipment on the Show floor to establish a compliant plan of operation for implementation at the show.
